

THOMAS VAHLENKAMP

He has been serving clients in the power, oil, gas, coal, chemicals, and transportation industries for more than 20 years.

He is the Global Leader of the Energy and Materials Area of McKinsey, which includes power, gas, metal and mining, oil and chemicals. He boasts extensive expertise in strategy, organization and operational transformation at both the corporate and business-unit level.

He co-wrote a book on excellence in capital expenditure and has published a number of articles and reports on global energy and other topics.

Thomas has a doctorate degree from the Max Planck Institute for Polymer Research and an undergraduate degree from the Technical University of Aachen. He earned both degrees in Polymer Chemistry.
